# varicose veins

the most **efficient** injection treatment

Ethamolin offers specific advantages over any other sclerosing agent for varicose veins. Given sufficiently early, Ethamolin frequently brings *lasting* benefit; marked relief can be obtained even in cases of prolonged untreated varicosity. Ethamolin forms a firm, adherent thrombus. Sloughing is not caused if the solution escapes around the vein and there are no general reactions except in the very rare case of hypersensitivity. The total dosage required is normally less than 6 cc. With the growing recognition of Ethamolin as a safe and efficient sclerosing agent, the need for operative treatment of varicose veins becomes increasingly rare.

2 cc Ampoules:  
Boxes of 6 and 100.  
Bottles of 15 cc. and 30 cc.

## ETHAMOLIN

# The GENTLE REIN

*— the safe sedative*

In nervous instability, neuroses and anxiety states  
'Adalin' gives effective control without depressing  
the heart or interfering with the ability to work.

A bromo-ethyl-urea compound of notably low  
toxicity, 'Adalin' taken at bedtime is a useful mild  
hypnotic in the insomnia caused by overstrain  
and worry.

# CRYSTALLINE PENICILLIN

(Sodium Salt)

*Enhanced purity, potency and stability*

Crystalline Penicillin (‘Avlon’) is characterised by its high standards of purity, potency and stability, and can be relied upon to produce optimal therapeutic effects.

- **Highly Purified**—It has a potency of at least 1,600 units per mgm. and contains not less than 96% of Penicillin G (II).
- **Well Tolerated**—Because of its high degree of purification the possibility of causing pain on injection or of producing untoward reactions in the patient is reduced to a minimum.
- **No Refrigeration Required**—‘Avlon’ Crystalline Penicillin is a stable product and has the advantage that it may be stored at room temperature and retains its full potency for eighteen months.

Crystalline Penicillin—‘Avlon’—is issued in vials of 0.1, 0.2, 0.5 and 1 mega unit.

# INTRAVENOUS ANAESTHESIA *with* **'KEMITHAL' SODIUM**

'Kemithal' Sodium (sodium cyclohexenyl-allyl-thiobarbiturate) is a new ultra-short-acting intravenous anaesthetic, evolved in the I.C.I. Research Laboratories.

In extensive clinical trials, 'Kemithal' Sodium has proved to be a highly efficient and satisfactory agent for basal hypnosis and for surgical anaesthesia of short or prolonged duration. It has the advantage of a relatively high therapeutic quotient, it achieves anaesthesia without giving rise to undue respiratory depression and a number of workers have found that with 'Kemithal' Sodium the incidence of laryngeal spasm is less than with other intravenous barbiturates.

Descriptive literature supplied on request.

*'Kemithal' Sodium is issued in ampoules of 1 gramme and 2 grammes in boxes of 5 and 25, together with sterile distilled water in ampoules of 10 c.c. and 20 c.c. respectively; ampoules of 5 grammes 'Kemithal' Sodium are also available in boxes of 5 and 25.*

## IN ARTIFICIAL FEEDING

This famous bridge has survived the test of time through the centuries since the Roman masons used their skill in its construction. The history of infant foods is more restricted in time but for more than 40 years COW & GATE MILK FOODS have demonstrated their value.

When breast feeding is impossible or inadequate the infant should normally be introduced to artificial feeding by means of a half cream milk.

### COW & GATE -HALF CREAM MILK FOOD

bridges the gulf between breast and full artificial feeding. The transition period may be critical and Cow & Gate Half Cream provides a most satisfactory means of introducing complementary feeding. Should immediate change to full artificial feeding be necessary Half Cream Food ensures a minimum disturbance of infant metabolism.

THE FOOD IS FORTIFIED BY THE ADDITION OF VITAMIN D 320 I.U. PER OUNCE AND IRON 1 mgm. PER OUNCE.

*Particulars of this and other Cow and Gate preparations for specialised infant feeding, will be gladly forwarded on request.*

GUILDFORD SURREY

TRADE MARK

# 'SULPHATRIAD'

BRAND

*compound sulphonamide tablets*

**We are pleased to announce that supplies of 'SULPHATRIAD' are now available through the usual channels**

'SULPHATRIAD' contains, in each tablet :

sulphathiazole . . . .	0.185 gramme
sulphadiazine . . . .	0.185 gramme
sulphamerazine . . . .	0.130 gramme

'SULPHATRIAD' is suggested in the treatment of acute infections due to pneumococci, meningococci,  $\beta$ -haemolytic streptococci, *Bact.coli*, *H.ducreyi* and in gas gangrene. It may also be used as an adjuvant to penicillin therapy in grave *S.aureus* infections and in the treatment of localised staphylococcal infections such as boils, carbuncles and whitlows.

Since the solubility in the urine of each of the constituents of 'SULPHATRIAD' is not affected by the presence of the other two, the risk of renal complications such as crystalluria during treatment with this combination of sulphonamides is greatly reduced. Such a combination may also have certain advantages from the point of view of therapeutic activity.

Fuller information

## Peptic Ulcer and hypovitaminosis C

It has been shown experimentally that there exists a relation between peptic ulcer and hypovitaminosis C. Clinically it has been found that a considerable proportion of patients with low vitamin C reserves suffered from gastric or duodenal ulcer. Whether lowered vitamin C intake due to restricted dietary is always the cause of hypovitaminosis, or whether the hypovitaminosis is an ætiological factor in ulcer formation, is not yet determined.

Tests at various hospitals, employing two to three fluid ounces of

'Ribena' Blackcurrant Syrup daily, clearly showed that in acute cases of peptic ulcer, or cases of fairly recent standing, the supplement of blackcurrant juice accelerated disappearance of symptoms and of X-ray evidence of ulcer. Cases of hæmatemesis did particularly well on 'Ribena' therapy.

# *Individuality....*

## *in personal attire*

is never more fully expressed than in a perfectly Laundered Shirt and Collar. In the matter of attire it is little things like these that gain for one a certain distinction. . . . .

So remember, to ensure perfection in finish, in the dual sense, send your Shirts and Collars to
